

MOBILITY & TRANSPORTATION

Uplands is providing safer multimodal corridors and building workforce housing along transit corridors to help reduce CO2 emissions and transportation-related air pollution. These strategies are reinforced throughout the Westminster Comprehensive Plan and the City's Sustainability Plan.

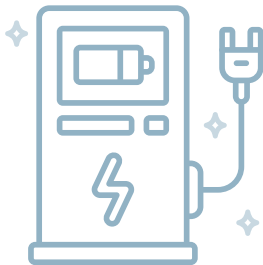

Performance-based plans to reduce Single Occupancy Vehicles and Vehicle Miles Traveled

Safer roadways and intersections for pedestrians, cyclists, and motorists

First- and last-mile solutions for improved access to mass transit, including RTD and Light Rail

EV charging stations for cars and bikes

Mobility hub at Village Center: bike shares, car shares, shuttle service, scooters, ride-hailing

Bike-friendly amenities: E-bikes, bike parking and storage, multiuse paths

Commitment to Vision Zero and safety for all users

Helping people live minutes – not miles – from where they work

Reducing millions of tons of travel-related CO2 emissions each year
